**Report to the Legislature
Assembly Bill 1X, Chapter 4, Statutes of 2001
Activities and Expenditures for Quarter Ended December 31, 2010**

Assembly Bill 1X (Chapter 4, Statutes of 2001), among other things, established Section 27 of the California Water Code, authorized the Department of Water Resources (DWR) to enter into long-term contracts with power generators, created the Power Supply Revenue Bond program and required DWR to make quarterly and annual reports to the Governor and the Legislature regarding California Energy Resources Scheduling Division's (CERS) activities.

CERS purchases power under the terms of its existing contracts, all of which were entered into prior to January 1, 2003. The scheduling, dispatch and certain other administrative functions for the existing contracts are managed by the investor owned utilities. CERS continues to have financial and legal responsibility for its contract portfolio and oversees repayment of the outstanding revenue bonds.

As required by Assembly Bill 1X, this report provides historical information with respect to cash receipts, disbursements, bonds outstanding and cash balances for the quarter ended December 31, 2010. There are no unexpected trends, and cash balances at the end of this quarter met or exceeded amounts required by the Trust Indenture for the Power Supply Revenue Bonds. The report also compares CERS' 2011 fiscal year appropriated costs to budget for the fiscal year ending June 30, 2011, and demonstrates that CERS' expenditures are within budget.
